Welcome to ECCDC!

Site Supervisor Corner

The Ages & Stages Questionnaire is a great tool for families and teachers. ASQ night will be **Thursday, September 21, 2017 from 5:30- 7:00**. This is a great way for families to come to their child's classroom and fill out a questionnaire with their child's teacher. This tool allows for the parents and teachers to have a better understanding where the child stands developmentally and socially. The ASQ also makes it easy to share children's strengths with families, which helps teachers improve their relationship with parents and it actively encourages their child's progress.

Parents as Partners

Healthy Sleeping Habits

Sleep is no less important than food, drinks or safety in the lives of our children. Many positive outcomes can come from having proper sleep.

Sleep promotes growth, affects weight and helps increase a child's attention span.

For optimal outcomes, it is recommended children have a certain amount of sleep.

- 3-12 months should get 9.5-14 hours of sleep.
- 1-3 years old should get 12-14 hours of sleep.
- 3-5 years should get 11-13 hours of sleep.

To help your child get good sleep, establish a solid sleep routine. The routine should include a set time, a soft and quiet environment and include a bedtime story.

Birthdays of the Month

Ariana, Emily, Ezekiel, Ismael, Israel,
Joseph & Makoa

Staff of the Month

We would like to welcome Leni Maciel! She was transferred from Clothier to our Site on 07/17/2017, as an Associate Teacher in B2. We are very happy to have her back; Leni possesses a great personality and enjoys working with our little ones. Leni is planning to continue her education in order to earn her Teacher Permit. Hooray!
